Mary Anne Smiley Interiors

Inventive interiors on the cutting-edge of comfortable.

One of the top interior designers of the South, Mary Anne Smiley made her name designing the grand estates of Athens, Texas, before Dallas beckoned for her talents. She has since left her mark on spaces from coast to coast—transforming a villa in Cuernavaca, a suite in Cowboys Stadium, lofts in Manhattan, vacation homes in Vail, and the list goes on.

Decades of experience have given Smiley the confidence to make bold choices. She is known for strategically using a wealth of color and working with new materials to invent her own furnishings. For example, she recently created a desk using a metal base, an acrylic tray for the top, and integrating an LED net light source to illuminate an onyx insert. Sound spectacular? That's Smiley's standard.

Certified in AutoCAD software, she plans and oversees the full spectrum of her projects, from spatial corrections to custom commissions, such as art glass detailing, to layers of luxurious fabrics. The results are always clean, functional environments, precisely crafted to the point where avant-garde meets timeless.
